# Ravi Kumar

Frontend Engineer | jobs@example.com | +1 555 0100 | Example City

## Summary

Frontend engineer focused on accessible, performant web applications for e-commerce and banking products.

## Experience

**Frontend Engineer, Brightcart (2022 - present)**

- Built the product listing and checkout flows in React and TypeScript for a site with two million monthly visitors.
- Improved Lighthouse performance score from 58 to 91 by code splitting, image optimisation and caching.
- Worked with designers to build a shared component library used across four product teams.

**Junior Frontend Developer, Lumen Digital (2020 - 2022)**

- Implemented responsive pages from design files, with automated visual regression tests in Cypress.
- Fixed accessibility issues found in audits, bringing the main journeys to WCAG 2.1 AA.

## Skills

JavaScript, TypeScript, React, Next.js, CSS and Tailwind, Redux, Jest, Cypress, Storybook, web accessibility, Git

## Education

BEng Computer Science, Anna University (2019)

## Projects and other

Maintainer of an open-source date picker component; built a small design system used internally.
